AGENDA

## AMSTERDAM HARDCORE PUNK SHOWS!

OCCII, I guess you could say the CBGB's of Amsterdam, a well respected known venue within the hardcore/punk scene. It has hosted and is still hosting many great hc/punk bands, touring or local bands you name it. Crazy shows still fresh in our memories like the last Seein Red (NL) show ever, Direct Control (US), Scream (US), Hardskin (UK), Ratos de Porão (BR) have taken place here.

February 9th is the first hc/punk show of 2013 with two Danish bands invading; Dogmatist and Monoliths,

with local support from the noisy Adolf Butler (NL). Come over and get wild!

Already confirmed at the OCCII for this year... Fox Devils Wild (GER), Brudte Løfte (DK), Cheap Drugs (BE), The Shining (NL), Low Culture (US), Mornington Crescent (NL), Subrockers (NL), Synthetic ID (US), Kicking Spit (US), Citizens Patrol (NL), Man Lifting Banner (NL), Reproach (BE), Creem (US), Nuclear Spring (US), Night Birds (US) and still way more to come, so keep an eye out!

-Bianca (Adrenalin Addiction)

*Mornington Crescent at "DE KLUIS" the vault of a squatted bank office that served as rehearsal room for several Amsterdam punk bands (Amsterdamed, B.G.K., Funeral Oration, ...)*

## GUMMOPUNX RECORDS

Gummopunx is a small DIY hc/punk label and distro from Amsterdam that has just released the first EP of a Danish hardcore/punk band called Brudte Løfter from K-Town (Copenhagen). This band follows a long tradition of K-Town hardcore/punk bands like Amdi Peterson Arme, No Hope For The Kids and Night Fever. And is well worth seeing live. They play an old style of hardcore with melodic choruses. March 8th they will play at the OCCII.

Beginning 2012, Gummopunx released a LP for an early 80ties hardcore/punk band from Amsterdam called Mornington Crescent. Having done only a tape and an EP back in the day, Gummopunx has put all this old material + 3 unreleased tracks together on one LP. This was a reason why they decided to do a reunion show at the OCCII, March 29th you can witness them live again!

EXPERIMENTAL PERFORMANCE

Life performed by: Gaelle Rouard (Grenoble, MTK laboratory): 16mm projector + Christophe Cardoen (Metamkine): homemade light devices + David Chiesa: electric piano frame and electric bass. During the performance, Gaelle Rouard and Christophe Cardoen give emphasis both to light and film, using their handmade machine to cut through the rays better than a stroboscope. While this is happening, David Chiesa strikes the amplified strings.

"It falls under some tangential, unclassifiable genre that combines surf rock, space psych, weird Egyptian modal shit, and music that ghosts like." 'Capnomancy' (Jan 2013) on Abduction Records. This album is INCREDIBLE! If you took the surf interludes Mr. Bungle used to break down into mixed them with John Zorn's movie soundtrack explorations and Sun City Girls damaged twisted humor you would have the Diminished Men! 'Shadow Instrumentals' is the perfect mix of dark, almost pitch black menacing carnival freakshow music that has come out in years - maybe EVER. Producer Randall Dunn (Sunn O))), Earth, Six Organs of Admittance ... etc.)
