AGENDA

WE ARE SUBBACULTCHA!

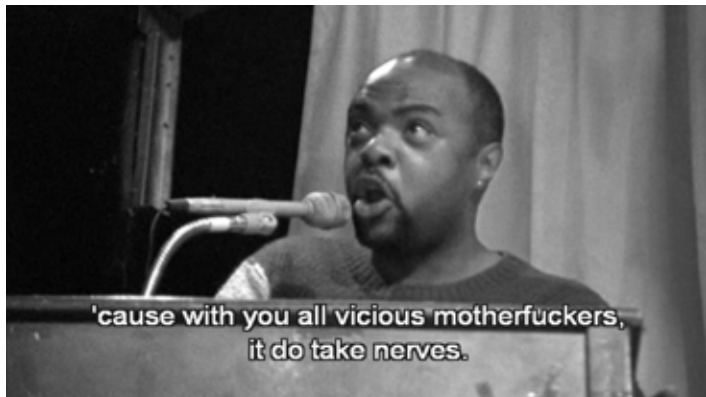

Subbacultcha! is an independent music and art platform based in Amsterdam, trying to spread the word on cutting edge artists and provide them with the audience they deserve. Basically, we are 9 people who hang out in an almost always freezing-cold but warmly decorated office in Amsterdam, where we listen to music and make fun of each other. In addition, there are at least 20 people who don't hang out at the office because they have actual jobs, but who are generously involved in making things happen, and without whom Subbacultcha! would just be an unnecessarily long word followed by an exclamation mark.

What we do is book and promote bands and artists that we like and think other people would also like. We are not attached to a single venue but instead we organize events in local haunts around Amsterdam, Rotterdam and Utrecht, each of which bring a unique vibe to our live shows. This is exactly why we love OCCII. Shows at venues like OCCII are great for reminding us that our heart lies in the dark and we really just want to drink beer while our ears are hugged by loud noise.

To promote shows and art we have a monthly magazine. It's pocket-sized and filled with things such as interviews with bands, our own photo shoots, lots of new music and features with up and coming local artists. We also organize regular exhibitions with these artists in our cosy basement gallery, located under the Subbacultcha! office.

The heart of our operation though is our member community, a congregation of like- and music-minded fiends who receive free entry to all of the concerts, films and exhibitions we organize. Ultimately, this means that when we offer shows to our members, a lot of them actually show up. Which is nice for the unknown but awesome bands who we get to introduce to more great local lovers.

SMEGMA (US) 40 YEARS ANNIVERSARY TOUR

ROOIE WAAS (NL) WITH SCREAMING SYNTHS **PQ** (NL) VIDEO/NOISE INSTALLATION

SMEGMA 40 years Anniversary Tour. That's how long Smegma have been doing what they do. That day when you first discovered the idea of DIY culture, producing your own records/gigs/zines - Smegma had already been doing it for decades, had pretty much invented it with their Los Angeles Free Music Society cohorts in the early 70s. Smegma define limitless musical adventure, masterfully slicing through surf, out-jazz, garage, tape abuse, deck mangling, noise, collage and all points between, usually simultaneously. Notably named on the Nurse With Wound list, Smegma love the mainstream and want to disembowel it, paving a golden highway between formulaic funtimes and freeform brainfrying, being heartily cited by the likes of John Olson and Thurston Moore.

AMERICANA & OCCULT

DANIEL BACHMAN: a 22 year old musician born and raised in
Fredericksburg, Virginia, virtuoso 6 string steel guitar
picker. "The sound results in a combination of homesick
worried blues and the ecstatic buzz of fresh experience and a
new life in unknown territory..."

RYLEY WALKER is a guitarist based in Chicago, IL. His
music has ranged from free improvisation, free jazz, pop,
and to the outer limits of folk music.
